ABOUT US

PT Sinergi Teknologi Solusindo is a technology company focused on Industrial IoT and Enterprise Software solutions. We deliver integrated systems designed to enhance operational efficiency and enable data-driven decision making.

-  Established **2003**
-  HQ **Jakarta, Indonesia**
-  **30+** Engineer & Developer
-  **TKDN > 40%**
-  **Nationwide Coverage**
-  **Serving** Marine, Mining, Manufacturing, Energy, Agriculture, Oil & Gas, Trading, Retail, Service

VISION & MISSION

VISION

To become a leading provider of integrated technology solutions for industrial sectors.

MISSION

Deliver real-time, data-driven solutions.

Enhance operational efficiency and transparency.

Support industrial digital transformation.

We are committed to delivering innovative, reliable, and sustainable solutions that create value for our clients and contribute to a better future.

INDUSTRIES WE SERVE

Our solutions are designed to support complex operational needs across a **wide range of industries**.

MARINE

Smart monitoring and digital solutions for safer and more efficient operations at sea.

PALM OIL

Improving productivity and sustainability through integrated monitoring and management systems.

MANUFACTURING

Enhancing production efficiency and quality with real-time data and automation solutions.

MINING

Reliable monitoring and asset management to maximize performance and safety.

OIL & GAS

Integrated solutions for exploration, operation, and maintenance excellence.

Empowering industries with technology to drive **efficiency**, **sustainability**, and **growth**.

KEY SOLUTIONS

Our two flagship platforms deliver end-to-end solutions that **connect operations** with **business performance**.

INDUSTRIAL IoT PLATFORM

From Sensor to Decision

Real-time monitoring and intelligent data acquisition to optimize operations and asset reliability.

FUEL MONITORING SYSTEM

Monitor fuel usage in real-time to prevent loss and improve efficiency.

ASSET MONITORING

Track asset condition and performance to maximize uptime and lifespan.

ENERGY MONITORING

Gain visibility into energy consumption to reduce cost and increase efficiency.

PROCESS MONITORING

Monitor critical process parameters to ensure safety, quality, and compliance.

ENTERPRISE SOFTWARE SUITE

One Platform for Smarter Business Management

An integrated suite of applications that streamline business processes and support data-driven decisions.

ERP SYSTEM

Integrate core business processes for better visibility, control, and performance.

CMMS (MAINTENANCE MANAGEMENT)

Manage maintenance activities, assets, and work orders efficiently.

HR SYSTEM

Streamline HR processes from recruitment to employee management.

LIMS (LABORATORY MANAGEMENT)

Manage laboratory data, samples, and reports with accuracy and compliance.

NextSense empowers **operational teams** with real-time insights from the field.

Venus empowers **business teams** with integrated data and process excellence.

OUR EXPERIENCE

With decades of hands-on experience, we deliver proven solutions that drive **operational excellence** and **business value**.

INDUSTRIAL MONITORING SYSTEM IMPLEMENTATION

Successfully delivered monitoring solutions for various industrial assets and processes to improve visibility and control.

IoT-BASED SOLUTION DEVELOPMENT

Developed innovative IoT platforms and custom applications tailored to meet unique operational needs.

INTEGRATION BETWEEN OPERATIONAL AND BUSINESS SYSTEMS

Integrated data from the field to enterprise systems, enabling seamless workflows and data-driven decision making.

DEPLOYMENT ACROSS VARIOUS INDUSTRIAL SECTORS

Proven track record of successful implementations across multiple industries and project scales nationwide.

Our experience is built on trust, innovation, and a commitment to deliver results.

PROJECT IMPLEMENTATION

WHY CHOOSE US

We deliver reliable and innovative solutions that drive **efficiency, safety, and business growth.**

1

20+ Years Experiences

Two decades of delivering trusted solutions and value.

2

Full In-House Technology

We develop and control our own technology and platforms.

3

Hardware + Software + Cloud

Integrated solutions combining hardware, software, and cloud.

4

Customizable & Scalable

Solutions tailored to your needs and ready to grow with you.

5

Local Support & On-Site Service

Responsive local team ready to support you anytime.

6

5000+ Venus Users

Trusted by more than 5000+ users across industries.

7

50 + Vessel Installed

Proven track record with 50+ vessel installations.

8

End-to-End solutions (from IoT to ERP)

Complete solutions across the entire digital value chain.

9

Industry-focused approach

Deep understanding of industry needs and operational challenges.

10

Real-time data and automation

Empowering better decisions with real-time insights.

OUR CAPABILITIES

We deliver comprehensive technology capabilities to **optimize operations** and **accelerate business performance**.

System Integration

Integrating systems and technologies to ensure seamless connectivity and optimal performance.

Industrial Automation

Implementing automation solutions to improve efficiency, accuracy, and productivity.

Software Development

Building reliable and scalable software solutions tailored to your business needs.

Data Analytics

Turning data into actionable insights to support better decisions and drive business growth.

OUR STRENGTH

The foundation that drives our commitment to **deliver value** and build **long-term partnerships**.

Strong Experience Across Industries

Proven track record in various industrial sectors with understanding of complex operational challenges.

Focus on Integrated Solutions

We deliver end-to-end solutions that seamlessly connect operations with business decisions.

Experienced Technical Team

Our team of professionals brings deep expertise, practical insights, and dedication to every project.

Continuous System Development

We continuously innovate and enhance our systems to keep up with technology and customer needs.
